# Headtrip

## Copperpot

Forever after
You killed my laughter
All I've done
Doesn't matter selfCreate
Create
CreateHead trip drama
With your head so in the cloud
Never be the same
(Never forget the pain)Head trip drama
With your head so in the cloud
Never be the same
(Never forget the pain)Stuck in my head
Every word that you said
And all of you is deadCreate, create, create
Create, self destruction
Create, self destruction
Create, self destructionHead trip drama
With your head so in the cloud
Never be the same
(Never forget the pain)Head trip drama
With your head so in the cloud
Never be the same
(Never forget the pain)Head trip drama
With your head so in the cloudCreate, self destruction
Create, self destruction
Create, self destructionCreate
(Head trip drama)
Create
(With your head so in the cloud)
Create
(Never be the same)
(Never forget the pain)Create
(Head trip drama)
Create, self destruction
(With your head so in the cloud)
Self destruction
(Never be the same)
(Never forget the pain)(Head trip drama)
Create, self destruction

(With your head so in the cloud)
Self destruction
(Never be the same)
(Never forget the pain)
