Miles and Miles

Solea

Try to stay on the path and figure out the math
You can measure up all of the smiles and see
Them drag for miles and miles
We're making up for lost time
And pinching every last dime
I won't allow one more chance
It all started with one glance
I'm living with all of my might and it never seems to work out right

One more time around that's all i can do
Then i'm putting the weight right back on you

From miles and miles
