Love & Pain

Captain Hollywood Project

Said baby, what you want from me
I'll give you anything
Follow the river, leads to bigger streams
Your love is everything to me

Because my love runs deep as the ocean
Oh lets sail away (until the light of day)
No ones gonna stop us now, you and me can face the love and pain

Love and pain comes and goes, but I won't change, No
Love and pain

Said maybe, I'm the only thing you need
I know you feel it don't you
Or just maybe, perception is reality
Either way I want you

Because my love runs deep as the ocean
Oh lets sail away (until the light of day)
No ones gonna stop us now, you and me can face the love and pain

Love and pain comes and goes, but I won't change, No
Love and pain

That's what I like
I will never leave you lonely
That's what I like

Love and pain
