The Music I Like

Alexia

Your love is coming into my life
It makes me feel good inside
I need a moment of ecstasy
A feeling higher then highThis is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I likeYour love is coming into my life
It makes me feel good inside
I need a moment of ecstasy
A feeling higher then high
I want to live with my fantasy
Dancing into the light
And I can play with my destiny
It makes me feel satisfiedThis is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I likeA fire is burning inside of me
Feel the rhythm of life
I need your loving to set me free
I want you to stay by my side.This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I likeYour love is coming into my life
It makes me feel good inside
I need a moment of ecstasy
A feeling higher then highThis is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
