Small Figures In A Vast Expanse

Rilo Kiley

Let's try a new change
Let's try a new change
Let's try a new change
Then we'll go on back to the old one
Like we've done so many times before
And I'll buy a new brain
I'll buy a new brain
You'll administer new pain
Then we'll go on back to our old school
That we left so many times before
And you'll ask for more
And more
I've just begun a new phase
I'm trying these days
I've watched you close
I'm versed in all your ways
I'm just beginning to realize
I'll get you one of these days
But in the end if it was all pretend
Isn't that what friends are for?
But this is real life, it's supposed to be real life
So let's pretend that we're not bored
That we exist and that we're resolved
To real things happening to me
2, 3, 4
