One More Day

Floris

It all seems so easy
Everything is so unreal
Just say hi, and leave me
I'll let you get away

It don't need to know
It don't need to care
Whatever's hidden deep, deep down
Will be lost one day

Still everyday is a fine day
It's not much but it's enough.
If this is life, I think I'll stay
At least for one more day.

I wonder how will life be
In 5 more seconds from now
Will it be easier than this?
And will the skys be clear?

It don't seem to know
It don't seem to care
One day the time will come
The truth is near

Still everyday is a fine day
It's not much but it's enough.
If this is life, I think I'll stay
At least for one more day.

Still everyday is a fine day
It's not much but it's enough.
If this is life, I think I'll stay
At least for one more day.
