English Summer Rain

Fresh Produce

Always stays the same, nothing ever changes
English summer rain seems to last for ages
Always stays the same, nothing ever changes
English summer rain seems to last for agesI'm in the basement, you're in the sky
I'm in the basement, baby, drop on by
I'm in the basement, you're in the sky
I'm in the basement, baby, drop on byAlways stays the same, nothing ever changes
English summer rain seems to last for ages
Always stays the same, nothing ever changes
English summer rain seems to last for agesI'm in the basement, you're in the sky
I'm in the basement, baby, drop on by
I'm in the basement, you're in the sky
I'm in the basement, baby, drop on byHold your breath and count to ten
And fall apart and start again
Hold your breath and count to ten
Start again, start again
Hold your breath and count your step
Fall apart and start again
Start again
Start again
Start again
Start again
Start again
Start again
Start again
Start again
Start again
Start again
Start again
Start again
Start againAlways stays the same, nothing ever changes
English summer rain seems to last for ages
Always stays the same, nothing ever changes
English summer rain seems to last for agesHold your breath and count to ten
Fall apart and start again
Hold your breath and count to ten
Start again, start again
Hold your breath and count to ten
Fall apart and start again

Hold your breath and count to ten
And start again, and start again
Start again
Start again
Start again
