Last Kiss

Anita Cochran

I know youre going, I know this is goodbye
And I cant make you stay no matter how hard I try
And ooh, if your leaving, please grant me this one request
And leave my heart with some happinessIf this is the last kiss
Lets make it last all night
If this is the last time that Im ever gonna hold you
Let me hold you tight 'til the morning light
If this is the last time, ooh, well ever be together
Then kiss me and baby, give me something to remember you byPull down the shades
Put your heart next to mine
Tonight, give me a chance to feel heaven just one more time
And ooh, if your leavin, well honey, Ill set you free
Just leave my arms with one sweet memoryIf this is the last kiss
Lets make it last all night
If this is the last time that Im ever gonna hold you
Let me hold you tight 'til the morning light
If this is the last time, ooh, well ever be together
Then kiss me and baby, give me something to remember you byIf I cant be with you, baby, all my life
The next best thing is you next to me all through the nightIf this is the last kiss
Lets make it last all night
If this is the last time that Im ever gonna hold you
Let me hold you tight 'til the morning light
If this is the last time, ooh, well ever be together
Then kiss me and baby, give me something to remember you by
