Baby Blue Eyes

Rocket To The Moon@@a

She poses for the camera
She's my little cover girl
If you tell her she's a pretty bird
She flies around the world
Still gets nervous when I kiss her
But that don't mean she's shy
Man, you ought to see it
When she gets that look
In her baby blue eyes, her baby blue eyes
Oh, I love the man she makes me
Every day that woman saves me
With her baby blue eyes, her baby blue eyes
There's somethin' 'bout, there's somethin' 'bout
There's somethin' 'bout her baby blue eyes
The first time that I met her
I couldn't say a word
She knew what I was thinkin'
And I'm not sure how it worked
'Cause I know I don't deserve her
I would never break her heart
I knew it when she had me
And she had me from the start
With her baby blue eyes, her baby blue eyes
When she wants to, she can have me
Yeah, she owns me when she asks me
With her baby blue eyes, her baby blue eyes
There's somethin' 'bout, there's somethin' 'bout
There's somethin' 'bout her baby blue eyes, oh, eyes
I used to think love was just a word
I never thought time would heal the hurt
And then you waltzed right in my life
An angel in disguise with baby blue eyes
Whoa, ooh
Her baby blue eyes, her baby blue eyes
Oh, I love the man she makes me
Every day that woman saves me
With her baby blue eyes, her baby blue eyes
Yes, you know there's somethin' 'bout, there's somethin' 'bout
There's somethin' 'bout her baby blue

There's somethin' 'bout, there's somethin' 'bout
There's somethin' 'bout her baby blue eyes, oh, eyes
Ooh
