The Stayin'

Bryan White

She got butterflies, you've got 'em too
You look into her eyes and it's quite a view
You see forever, all mapped out
Well, I hope you know what you're talking aboutIt ain't the fallin' in love that pulls you through
When the times get tough, what you gonna do?
To make it last day out and day in
'Cause it ain't the falling in love, it's the stayin'You call each others' faults endearing traits
Until the day they all start to irritate
And when the new is getting gone
That's when you learn how to keep hangin' onIt ain't the fallin' in love that pulls you through
When the times get tough, what you gonna do?
To make it last day out and day in
It ain't the falling in love, it's the stayin'Through the in's and out's
Through the waves of doubt
That's what love's aboutIt ain't the fallin' in love that pulls you through
When the times get tough, what you gonna do?
To make it last day out and day in
It ain't the falling in love, it's the stayin'It's stayin', it's the stayin'
