Burning

Finley Quaye

Remove that attitude, I'm in love with you
I don't care who knows about us
If all the world could see what you do with me
I'm sure we'd have many blessingsEveryday my heart is with you
Because we cannot always be together
Everyday I feel love in all my preparation
This happy satisfaction is making my decision'Cos Im the cat who likes the cream
If you know what I mean together we make steam
Mix up fire and water, you got to have a good sense of humor
To stand the rumor, you got to be jollyWe are yearning, yearning
We've seen it many times before
We're burning, burning
Thats why Im so sureEveryday my heart is with you
Because we cannot always be together
Everyday I feel love in all my preparation
This happy satisfaction is making my decision
