

Wasted Sky

Numb

Jacked in -- live a thousand lives by wire
She's there too - line command desires
Lessons taught not learned: the walls go up
Higher and higher
Dining on plastic as fantasies catch fire
If only... i could climb through that window
If only... i could connect the dots
If only... i could be... there
If only... only ... if only
Isolate
Prisoner wired
Electric dreams
Wasted sky
World of yes or no; microchip dripping acid
Zeros and ones -- psychedelic and drastic
Pirate copy life, a soul without a home
Wander technicolour lands, conquer like a ghost
Reality is a virus; drowning in excuses
Information poisoning -- narcotized and useless
To dream perchance to live (unplug me let me sleep)
Funhouse mirror algorithms count electric sheep
Interactive fairy tales -- all this and nothing
Multipin snake, silicon fruit for the tasting
A catalog of dreams; painting over the windows
Machine ex machina down a pixelated rainbow
Too much is nothing nothing
Too much is nothing nothing nothing
The demons cease to sort nothing nothing
Too much
So much
And nothing
Isolate
Prisoner wired
Electric dreams
Wasted sky
