Fire In The Sky

Doomed Beast

The introduction to his heartache began as a child
So it's no wonder that he grew up to be so wild
So he protected his feelin's in walls he imagined
But castles crumble exposin' the frightened child, yeah
Fire in the sky
Can't you see that all my castles are burnin'
Fire in the sky
Won't you help me now my castles are burnin'
In solitude he couldn't deal with his own existence
The burnin' questions in the castles have still remained
God only knows how he searched in vain for the answers
Now castles crumble exposin' his naked flames, yeah
Fire in the sky
Can't you see that all my castles are burnin'
Fire in the sky
Won't you help me now my castles are burnin'
Fire in the sky
Can't you see that all my castles are burnin'
Fire in the sky
Won't you help me now my castles are burnin'
Oh oh oh oh oh oh

Aa aa aa aa
Aa aa aa aa
Aa aa aa aa
Aa aa aa aa
Aa aa aa aa
Aa aa aa aa
Fire in the sky
Can't you see that all my castles are burnin'
Fire in the sky
Won't you help me now my castles are burnin'
Fire in the sky
Can't you see that all my castles are burnin'
Fire in the sky
Won't you help me now my castles are burnin'
(Can't you ever see)
Fire in the sky
Can't you see that all my castles are burnin'

(That my castles are burnin')
(Can't you ever see)
Fire in the sky
Won't you help me now my castles are burnin'
