Stay On

Pedro Janela

My mind is spinning
Don't you know
That I'm outta control?
I don't need you to tell me so
Again, you win
Don't you know
That it's taking its toll?
I don't need you
I don't need you
Is it me that you're looking for?
Mmm, that you're looking for
That you're looking for
Is it me walkin' out the door?
Walkin' out, walkin' out
I'll be like
Mmm, I'll be like
Stay up, stay on
She only wants
To see me break down
Stay up, stay on, yeah
Stay up, stay on
She throws out the little cut-downs
Don't it seem absurd? Yeah
In the beginning
Don't you know?
I thought I was in control
I don't need you to tell me so
The dirty linen
Don't you know?
Is beginning to show
I don't need you
I don't need you
Is it me that you're looking for?
Oh, that you're looking for
That you're looking for
Is it me walkin' out the door?
Walkin' out the door
I'll be like
Mmm, I'll be like

Stay up, stay on
She only wants
To see me break down
Stay up, stay on, yeah
Stay up, stay on
She throws out
The little cut-downs
Don't it seem absurd? Yeah

You fight all night
But you don't get it right
So you drink ten beers
'Cause you don't wanna hear about
Fight all day
But the feelings only stay
But there's nothing you can do
'Cause she doesn't like you
Just when you get warm
She pulls off the covers
And she leaves
And goes straight for her mother's
That's when you wanna
Look her right in the eye
And you hear her say "Goodbye"
I'll be like
Stay on, stay on
She only wants
To see me break down
I'm the last to have heard, yeah
Stay up, stay on
She throws out
The little cut-downs
Don't it seem absurd? Yeah
Stay up, stay on
Stay up, stay on
Stay up, stay on
Stay on, on, uhh
Don't, every time we meet
At this function junction
(Stay up, stay on)
Not gonna believe
The assumed presumption
Wanna talk it out
But it's not gonna be necessary
(Stay up, stay on)

She's not so fragile
She plays the mercenary
Stay up, stay on
She throws out
The little cut-downs
Stay up, stay on
Stay up, stay on
Never say, "Goodbye"
(Stay up, stay on)
Never say, "Goodbye"
(Stay up, stay on)
