Emergency Broadcast

Playdough

even now i hear the sound
of notes up high that won't come down
i know what it is, but want your two cents
i'll give you one guess after some hintsthere is no whistle; no hearing test
emergency broadcast or birds nest
is it your feedback mr. swann?
no, it's the smoke alarm listen come onlisten come onbatteries sit there on the shelf
the alarm won't grow legs and change them itself
i wish it would though cause I'm stuck in this head
thinking of the things that i'll do insteadhold my breath
count the tile
catch a glance
walk the aisleclick the heels
check the time
watch ice melt
change the rhymepray for rain
watch my weight
stretch the truth
save the datefind the beat
reverse the curse
sign the card
finish the versehear the band
hum along
sound it out
learn the song
