

Feelings

Lasgo

Don't you dare to play with my feelings
I can't take it anymore
You spin the world around
You turn me upside down
I try to stay far away from you
Far away from you Why do you still try
When you are the one to blame?
Why do I still cry
It'll never be the same? Why do you still try
When you are the one to blame?
Why do I still cry
It'll never be the same? You are beggin' me to stay with you
But you are drivin' me insane
Get out of my way and I will walk alone
I don't wanna be part of your game
I don't wanna be part of your game Why do you still try
When you are the one to blame?
Why do I still cry
It'll never be the same? Why do you still try
When you are the one to blame?
Why do I still cry
It'll never be the same?
