Finally

Eamon

Wake up and I'm feelin right
Hop out of bed and I grab a bite
Rake up a fatty and roll it tight
Thinking what I'm gonna do tonight
New that she was feelin me
And I was feeling her like ecstasy
Next thing you know she was next to me
By the mornin time she's sexin me
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been smokin
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been fuckin
Check the mail box and I got my check
Sit back, relax as I sip my Becks
Think about all the shit I can get
So I spend and spend
Till I think I'm set
Hit the club
And I'm feelin nice
Let me get the bottles in the ice
When I come through
You know Staton's tight
Everyone I brought
Gets laid tonight
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been livin
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been drinkin
And so the day has come
Just as quick, the day goes by
I still know I gotta try

Leave the bullshit far behind

And even if that feeling's lots
I'll make sure that it was found
On my ground
I'll be crown
Ain't goin down no
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been fuckin
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been livin
Everytime you see me I'll be smilin
Willin with my boys on staton island
Phillies and lots of chicks
We havin fun tonight
Everytime you see me I'll be smilin
Willin with my boys on Staton island
Phillies and lots of licks
We fucked up feelin right
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been smokin
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been drinkin
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been drinkin
Finally I can say
Everything today has gone my way
No problems, no hassles
I've been livin
Smokin, drinkin, livin, laughin, fuckin, buggin, lovin, singin, spendin, chillin
