Crash and Burn

Rita Hosking

Lemme tell you 'bout a real good show, it's the Burney Demo Derby and Rodeo
My baby's got a '66 Chevy Biscayne and on the hood in orange, he painted my name.

In barrel racing, we're a powerful force, me and my American Quarter Horse
She's got the will, she's got real good lines, we can round an oil drum in record time.
But my baby says there's something we all gotta learn, everybody wants to see you crash and burn.

I figured out this derby stuff, tear it down to basics and you get tough
Stick'er in reverse, slide'er in drive, yeah, it's about the art of how to survive.
And my baby says there's something we all gotta learn, everybody wants to see you crash and...

Burn, burn, burn, wanna see you burn
Wanna see if you catch fire
Wanna see the flames leapin higher
Wanna know if you can walk away, rise up, rise up

Three years later, I'm still riding my horse, but now me and my 73 Matador
Fly in to the ring, we ain't got no friends, yeah, you better watch for my bitter end. See me...

Burn, burn, burn, wanna see me burn, burn, burn, burn, burn
Everybody there wants to see you crash and burn.
