Metalstorm (Re-Release 1986)

Iron Angel

saints of torment
knives on the fight
terror and destruction
troops are ready to die
holiest wars
sacred blades of paradise, did he grieve?

cry call!

metal storm rushes over the land
metal storm gets glory in his hand
metal storm looks the earth in the eye
metal storm breaks down the tide

a mad lightning hit the earth
the holy troops are coming to break its spell
strings of vengeance crush silent earth
eternal battlefields stampede everywhere

metal storm rushes over the land
metal storm gets glory in his hand
metal storm looks at us in the eye
metal storm breaks down the plague

metal storm rushes over the land
metal storm gets glory in his hand
metal storm looks the earth in the eye
metal storm breaks down the tide

hated fate
claim the iron sword
the metallion is coming to win the war
angels and holy flocks are prepared for destruction
they are running for attack

metal storm rushes over the land
metal storm gets glory in his hand
metal storm looks at us in the eye
metal storm raise our own brave
