Let's Duet

Dewey Cox

Hello, darling
Hello, Mr. Cox
You ready to sing one?
I'm always ready
AlrightIn my dreams you're blowing me some kisses
That's one of my favorite things to do
You and I could go down in history
That's what I'm prayin' to do with youLet's duet in ways that make us feel good
Let's duet and make that sacred sound
Put two and two together, perfect harmony we found
We know it's only natural, let's duetI'm going to beat off all my demons
That's what loving Jesus is all about
Looking in your eyes, I start believing
Let's bring this whisper to a shoutLet's duet in ways that make us feel good
Let's duet and make that sacred sound
Put two and two together, perfect harmony we've found
We know it's only natural, let's duetDid i hear you sighing, what are you implying?
Look a little tired, the music got me wired
Pretty good looking, boy, I'm really cooking nowI just want to make out what you're saying
Read my lips, it's what you are looking for
Here I am, sneaking up behind you
You can always come in my back doorLet's duet in ways that make us feel good
Let's duet and make that sacred sound
Put two and two together, perfect harmony we've found
We know it's only natural, of course it's only natural
God knows it's only natural, let's duet
