Ryan

The Reptilian

Was that last drink a trigger of a gun
Fall asleep cold
Well I guess life is never any fun
With no one to hold.
Will you be there in the morning?
Will you be there in the morning?
Did you think alcohol would patch you up
Ease all the pain
Well I guess we'll never know, we'll never know
What could have been today.
Will you be there in the morning?
We told you it's worth the fight
Will you be there in the morning?
Will you be there in the morning?
We told you it's worth the fight

We told you it's worth the fight
Catch your breath, you're only 21
You won't be there in the morning
Catch your breath, you're not the only one.
Catch your breath, you're only 21
You won't be there in the morning
You're not the only one.
Will you be there in the morning?
(Will you be there in the morning?)
Will you be there in the morning?
I told you it's worth the fight.
Will you be there in the morning?
(Will you be there in the morning?)
I told you it's worth the fight
I told you it's worth the fight.
