Fake

Busted

I can't believe what my girlfriend did today
She screamed so loudly then she turned away
Why did she cut me down to size
She left me wondering, "Can I do it right?"
What am I gonna do now the games up
Can't get her off that's kinda rough
She better not tell my mates today
So baby tell me now do I need to measure
'Cause I'm feeling under pressure
I'm just hoping that the fear will go away
Don't wanna be a fake
I woke up in a sweat felt a disgrace
She looked so beautiful love on her face
Feeling stupid all on my own
I put it down to experience 'cause now I've grown
What am I gonna do now the games up
Can't get her off that's kinda rough
She better not tell my mates today
So baby tell me now do I need to measure
'Cause I'm feeling under pressure
I'm just hoping that the fear will go away
Don't wanna be a fake
Don't wanna be a fake it's quite uncanny
Cause my favorite film is when harry met sally
But now we're finished there's no way
That we're ever gonna be okay
Don't wanna be a fake, how low can I go
You might find me reading Cosmo
But when I'm finished you know that
You're gonna wanna be with me
Gonna wanna be with me
Gonna wanna be with me
Gotta a girl on my sofa
You're getting undressed
I gotta know can I deliver
'Cause I'm feeling stressed
What am I gonna do is my game up
I've got the goods is that enough
There's almost nothing left to say

So wish me luck not gonna run
The final countdown has begun
Not gonna see or hear them
Laughing in my face
What am I gonna do now the games up
Can't get her off that's kinda rough
She better not tell my mates today
So baby tell me now do I need to measure
'Cause I'm feeling under pressure
I'm just hoping that the fear will go away
Don't wanna be a fake
