How Can I Love You

XIA

How can I love you
Do you know?
Can you tell me?
So my heart can fill in with your heart
Can you open the way?

How can I stand with you
It has already started
I canâ€™t stop
When I open my eyes, I can only see you
You became my everything
Oh Love

Everyday Iâ€™ll give you
all of my love
This is my first love
How can I express it?
Everyday Iâ€™ll give you
all of my heart
Words I prepared for you
I can say them with confidence
Even though youâ€™ve stopped in fear
I love you

How can I stand with you
Close your eyes
I am next to you
Will you take a step to me
So I can touch your cheeks?
Oh Love

Everyday Iâ€™ll give you
all of my love
This is my first love
How can I express it?
Everyday Iâ€™ll give you
all of my heart
Words I prepared for you
I can say them with confidence
Even though youâ€™ve stopped in fear

I love you

Everyday Iâ€™ll give you
all of my love
This is my first love
How can I express it?
Everyday Iâ€™ll give you
all of my heart
Words I prepared for you
I can say them with confidence
Even though youâ€™ve stopped in fear
I love you
