Guilty As Charged

Mimes On Rollercoasters

It's hard to really say just how he went astray
His destiny was just a candle in the wind
Trying to survive and keep them both alive
The verdict has just come in.

He was found guilty as charged
He was found guilty as charged
He was found guilty as charged
He was found guilty as charged

There's nothing more to say, they're leading him away
The sentencing is in; they threw the book at him
She looks him in the eye and then begins to cry
Can I have a word with him?

He was found guilty as charged - Guilty
He was found guilty as charged - Guilty

He was found guilty as charged - He knew he did the crime and now he'll do the time!
He was found guilty as charged
He was found guilty as charged - Just trying to survive and keep them both alive.
He was found guilty as charged

He was found guilty as charged - Handing him his fate, he knows he can't escape
He was found guilty as charged
He was found guilty as charged - Tears are in her eyes as she begins to cry
He was found guilty as charged - There's nothing she can do for him
