

Family

Rebecca Zamolo

F-A-M-I-L-Y

Our bond is strong and you know why
Through thick and thin, we got each other's back

Friends become family, no one can attack

Fight together Zamfam strong

Side by side, we can't go wrong

Support and love, care and trust

Sticking with family is a must

Family is everything, it's just

You and me, supporting we

Nothing can break us, our bond will make us

Yeah, family is everything

Do we bring her in?

Yeah, it's all about trust

We're a family

So trust is a must

She helped us out

Put her neck on the line

I have to admit she's pretty good at spying

She's proven herself and faced her biggest fears

It kinda feels like we've known her for years

But if we let her in and seal the deal

She finally needs to do a face reveal

Family is everything, it's just

You and me, supporting we

Nothing can break us, our bond will make us

Yeah, family is everything

F-A-M-I-L-Y

Our bond is strong and you know why

Through thick and thin, we got each other's back

Friends become family, no one can attack

Fight together Zamfam strong

Side by side, we can't go wrong

Support and love, care and trust

Sticking with family is a must

Family is everything, it's just

You and me, supporting we

Nothing can break us, our bond will make us

Yeah, family is everything
