Guitar Song

Texas

I feel bad and beautiful
In all the strangest places
You feel good, you're sweetest
The weather's changing as I look at your faceFalling, fall to the floor
Falling, you know we canHaven't had a dream in such a long time now
It's raining here and all the leaves are on the ground
But I'm safe and warm, outside it's cold and gray
That's my guitar and I will play for you all daySo many songs in my mind
Maybe less 'cause I've drunk so much wine
There's light in your eyes
But out the window it's gone dark outsideFalling, fall to the floor
Falling, you know we canHaven't had a dream in such a long time now
It's raining here and all the leaves are on the ground
But I'm safe and warm, outside it's cold and gray
That's my guitar and I will play for you all dayHaven't had a dream in such a long time now
It's raining here and all the leaves are on the ground
But I'm safe and warm, outside it's cold and gray
That's my guitar and I will play for you all dayIt'll be alright
If you stay tonightHaven't had a dream in such a long time now
It's raining here and all the leaves are on the ground
But I'm safe and warm, outside it's cold and gray
That's my guitar and I will play for you all dayHaven't had a dream in such a long time now
(It'll be alright)
It's raining here and all the leaves are on the ground
(It'll be alright)
But I'm safe and warm, outside it's cold and gray
(It'll be alright)That's my guitar and I will play for you all day
(It'll be alright)
That's my guitar and I will play for you all day
(It'll be alright)
That's my guitar and I will play for you all day
(It'll be alright)
That's my guitar and I will play for you all day
