Fearless

dc Talk

Haunted by a jaded past, never thought that love could last
Hope was but a castaway at sea
Skepticism took it's toll, closed the windows to my soul
Was fighting just to keep my sanityWhen out of the noise I could hear you breathing
You came along knowing just what I needed
Turned me around and ya got me believin'
You would die for meNow I'm fearless with nothing left to hide
All the doubts of yesterday, love has driven them away
And now I'm fearless when I am by your side
It's forever, me and you in this covenant of truth
Ya know I'm fearless, oh yeahPatiently you stripped away the walls of pride that I had raised
You revealed the child inside of me, yeah
We will run and not grow old, soar on wings as I've been told
Together we will fly the heavenlies'Cause out of the noise I could hear you breathing
You came along knowing just what I needed
Turned me around and ya got me believin'
I would die for youNow I'm fearless with nothing left to hide
All the doubts of yesterday, love has driven them away
And now I'm fearless when I am by your side
It's forever, me and you in this covenant of truth
Ya know I'm fearless, oh yeahSome of us leave the vine, some of us fall in line
All of us have a friend in Jesus
Some of us live in fear, some of us persevere
Knowing that you are near meI am fearless with nothing left to hide
All the doubts of yesterday, love has driven them away
And now I'm fearless, my spirit is alive
It's forever, me and you in this covenant of truth
Ya know I'm fearless, oh yeahDon't have to fear now
Don't have to fear now, no no no no no no
Don't have to fear now
Don't have to fear now, no no no no no no
No no no, don't have to fear now
