Burrito

Seema

I'll try to hide myself, give this to someone else
My hands are stained with scum, wish I could wash it away
You keep taking on, taking on away
And keep breaking on, breaking on, break itI can't believe in yesterday, I feel you coming in
I can't just stand by and watch you
Save yourself as you fall from grace
When you come around, I won't be your sympathyThe worst is over now, you said it anyhow
My life in monochrome, wish I could regain control
You keep taking on, taking on away
I keep faking on, faking on, fakeI can't believe in yesterday, I feel you coming in
I can't just stand by and watch you
Save yourself as you fall from grace
When you come around, I won't be your sympathyFind me, feel me, fill me, then cut me up again
Find me, feel me, fill me, then cut me upHate meI can't believe in yesterday, I feel you coming in
I can't just stand by and watch you
Save yourself as you fall from grace
When you come around, I won't be your sympathy
Save yourself as you fall from grace
When you come around, I won't be your sympathyHate
