Ultraviolet

Karl Bartos

Blue. green. yellow. red.
My new life in my head:
The day the world turned ultraviolet.Labels I've got to get,
Neighbours I've never met:
The day the world turned ultraviolet.Ultraviolet. ultraviolet.
The day the world turned ultraviolet.
The day the world turned ultraviolet.Exalted by commercials
Which say that cars add to sex-appeal
Or that banks help you with your life
I have to return some videotapes.
I have to return some videotapes.
I have to return some videotapes.Ultraviolet. ultraviolet.Ultraviolet. ultraviolet.I have to return some videotapes.
I have to return some videotapes.
I have to return some videotapes.I have to return some videotapes.
I have to return some videotapes.
I have to return some videotapes.Ultraviolet. ultraviolet.
