

# Walking in the Dark (feat. Nappy Roots)

Michael Barber & Matty Moe

[Verse 1: Matty Moe]

Long Days, late nights in the studio  
Roll a couple J's, grab a bottle, let the liquor flow  
Close my eyes, turn on a beat, now I'm in my zone  
Use to wile out now that's changed since I'm fully grown  
Surround myself with good people, good music too  
Fully focused on my dreams more chance to make'em true  
Love the life that i live such a beautiful thing  
Not a materialistic person give a damn about bling  
Really just a simple man if you look inside  
Sit down for a minute and let's kick some rhymes  
I don't have time to sweat the small shit  
Positive thinking and optimistic what you call this  
If you wanna change be the change that you wanna see  
Misery loves company, that company don't follow me  
If you wanna change be the change that you wanna see  
Misery loves company, that company don't follow me

[Hook:Michael Barber]

So I'm on the outside, outside looking in  
If they only knew, knew where I been  
Hard but I'm walking step after step in the dark  
Never saw the sunset

[verse 2:Fishscales of Nappy Roots]

Mike what up....Nappy I got you though...  
I'm in my pops old pickup  
Trying to lift up to a better romance  
Seems the world only dicks us  
I don't complain, let it rain, I'm going to twist up  
To be happy what I gotta get rich for?  
When I been poor, and I was happy with a buzz and my kinfolk  
I believe if God brought us to it, than he can led us through it  
So what you worried bout the rent for?  
Lighten up, light'em up, got plenty weed  
Spread love to my love ones and enemies  
And to the big corporations giving that bread back  
This year all of my yagers growing they dreads back  
I admit that I'm living my life like I'm hybrid

Smoke like a fire still drink like I'm Irish  
But I always keep it Nappy  
Smoke until I'm happy  
I'm riding to that other side catch me I'm....

[Hook:Michael Barber]  
So I'm on the outside, outside looking in  
If they only knew, knew where I been  
Hard but I'm walking step after step in the dark  
Never saw the sunset
