Pretty Girls

Stuffa ft. Mapei

[Travie McCoy]So many different flavors
So many shapes and sizes
You coming with me and you going with Iyaz
No surprises, I put it all on the table for you
Nothing is too taboo, I'm ready, willing and able for you
[Chorus]There's a lot of pretty girls in this city
There's a lot of pretty girls in this town
I'm tryna pick the right one
I'm tryna pick the right one
Trying to find a shawty to hold me down
[Verse 1]They say to get to New York girl
Then you gotta have a lot of class
And I heard there ain't nothing like the Cali girls
But you better have a lot of cash
And I know there ain't nothing like them A-Town girl
Cuz they know how to show you love
And no matter where I go
I gotta let'em know
That this song here is about you
See I done been around the world To places you would not believe
and seeing all those pretty girls
and wishing you were there with me
the simple way you smile girl
Tells me all I need to know
You can be my one and only
[Chorus]There's a lot of pretty girls in this city
There's a lot of pretty girls in this city
I'm tryna pick the right one
tryna pick the right one
tryna pick the right one
tryna pick the right one
There's a lot of pretty girls in this city
There's a lot of pretty girls in this town
I'm tryna pick the right one
tryna pick the right one
tryna find a shawty to hold me down
Tell me is it you, girl?
Is it you, girl? [x4]
[Verse 2]They say, To get a MIA girl,

Then you gotta have a lot of swag
and I heard, To get a Down South Bell,
Then you gotta ride a Cadillac
and I know, Ain't nothin like them London girl,

Cuz they know how to party oh
And no matter where I go, I gotta let em know
That this song here is about you
See I done been around the world
To places you would not believe
and seeing all those pretty girls
and wishing you were there with me
The simple way you smile girl
Tells me all I need to know
You can be my one and only
[Chorus]There's a lot of pretty girls in this city
There's a lot of pretty girls in this city
I'm tryna pick the right one
tryna pick the right one
tryna pick the right one
tryna pick the right one
There's a lot of pretty girls in this city
There's a lot of pretty girls in this town
I'm tryna pick the right one
tryna pick the right one
Trying to find a shawty to hold me down
Tell me is it you, girl?
Is it you, girl? [x4]
[Travie McCoy]I'm so indecisive
Tryna find a pretty girl that these shoes goes nice with
Been around the world and back, got a knack for them girls in black
But I need a chick that's gonna hold me tight like vice grips
Just make sure you leave my heart how you found it
You can keep the key but the lock stays around it
Baby, let's take it slow, no pulling a fast one
And you look like the type to keep my mind off the last one
[Chorus]There's a lot of pretty girls in this city
There's a lot of pretty girls in this city
I'm tryna pick the right one
tryna pick the right one
tryna pick the right one
tryna pick the right one
There's a lot of pretty girls in this city
There's a lot of pretty girls in this town
I'm trying to pick the right one

tryna pick the right one
Tryna find a shawty to hold me down
Tell me is it you, girl?
Is it you, girl? [x4]
