

Melt the Wizard

Goodbye Elliott

i'm bigger than i used to be,
i thunk it on the drive home,
who cares about your sweater,
i have cause to make you better
if you pause to make you better,

you are so grown up,
the way your so grown up,

you should melt the wizard
so he wont last forever,
we'll stand beneath the blizzard
and touch the stormy weather,
can you bring it with the weapons that we used adrift,
then you call me up, say you'll edit cup,
i wish you'd shut up,
oh how i wish you'd shut up.

i'm bigger than i used to be,
yeah i thought it on the drive home,
who cares about your sweater,
i have cause to make you better,
if you pause to make you better,

yeah you are so grown up,
the way your so grown up,

you should melt the wizard,
so he wont last forever,
and we'll stand beneath the blizzard,
and touch the stormy weather,
can you bring it with the weapons that we used adrift,
and we'll seize the day, so i hope and pray
you have a speech prepared to say,
a speech prepared to say.
