Tobacco Spit

Bare Jr.

Reel this spool of string
Strap the life jacket as tight as can be
Oh, we can fish and fry
Wave your last goodbye, could you see?There's too much tobacco spit on these stringsSo, you wanna sing next to me
You look tall on the woody seats
Oh, we can fish and fry
Wave your last goodbye, could you see?There's too much tobacco spit on these stringsSo you wanna walk on the moon
You'll be a hero back at the school
We can fish and fry
Wave your last goodbye, could you see?There's too much tobacco spit on these strings
There's too much tobacco spit on these strings
There's too much tobacco
