# Your Fool

## Natalie Prass

I remember you told me
You'd love me only
And now you've gone and treated me like a foolYou never say where you're going
Stay out until morning
And I know you have been treating me like a foolAll the loving that I made
All the promises that I gave
Then you let me down
And every story every lie
It won't save you from me saying goodbyeSo tonight when you're out
You'll come back to an empty house
With a note signed sincerely your foolAll the loving that I made
All the promises that I gave
Then you let me down, ohh
Every story every lie
It won't save you from me saying goodbyeBuilt this new life before me
But you fill up memory
And they haunt me like memories often do
And they tell me that I'll always be your fool
Oh I guess I'll always be your fool
