Touch Me

Matt Doyle and Emma Hunton

Hey, you girl, you deserve my love
Oh, oh
All I want to do is make you love me like this
All I want to do is make you touch me like this
All I want to do is make you love me
You're the best that ever happened to me
All I want to do is make you love me like this
All I want to do is make you touch me like this
All I want to do is make you love me
You're the best that ever happened to me
Long awaited my love say she want some of mine
Anticipating saying she's a big fan of mine
A trip, business can stay for some other time
Let's go together and share some good time
My skill my will, it doesn't take much
Simple words of love keeps us so in touch
Caress you up and bless you up and care you so much
And if I love you to hard I tell you hush, girl
All I want to do is make you love me like this
All I want to do is make you touch me like this
All I want to do is make you love me
You're the best that ever happened to me
All I want to do is make you love me like this
All I want to do is make you touch me like this
All I want to do is make you love me
You're the best that ever happened to me
Cute and black and she always upfront
Loving galore everyday throughout the month
Not one thing missing whole heap a joy whole heap a fun
Been giving you my love and now that you know it can't done
Girls come to see me for a good reason
Just want to be with me all throughout the season
I'm your lover girlfriend, and I'll surely please you
Love you for my lifetime and I never leave you
All I want to do is make you love me like this
All I want to do is make you touch me like this
All I want to do is make you love me
You're the best that ever happened to me
All I want to do is make you love me like this

All I want to do is make you touch me like this
All I want to do is make you love me
You're the best that ever happened to me
Girl you know that my love is authentic
Although your mighty cute so I'll treat you gently
From umm full a fuel intimately
Woman we a God from you make me
Oh, the way you look and the way you smile
Kalonji you drive me wild
Send my temperature higher
You fulfill my desire
Hey, you deserve my love, yeah
