Here

Rascal Flatts

There's a place I've been lookin' for
That took me in and out of buildings
Behind windows, walls and doors
And I thought I found it
Couple times, even settled down
And I'd hang around just long enough
To find my way back out
I know now the place that I was trying to reach
Was you, right here in front of meAnd I wouldn't change a thing
I'd walk right back through the rain
Back to every broken heart
On the day that it was breakin'
And I'd relive all the years
And be thankful for the tears
I've cried with every stumbled step
That led to you and got me here, right hereIt's amazing what I let my heart go through
To get me where it got me
In this moment here with you
And it passed me by
God knows how many times
I was so caught up in holding
What I never thought I'd find
I know now, there's a million roads
I had to take
To get me in your arms that wayAnd I wouldn't change a thing
I'd walk right back through the rain
Back to every broken heart
On the day that it was breakin'
And I'd relive all the years
And be thankful for the tears
I've cried with every stumbled step
That led to you and got me here, right hereIn a love I never thought I'd get to get to here
And if that's the road
God made me take to be with youAnd I wouldn't change a thing
I'd walk right back through the rain
Back to every broken heart
On the day that it was breakin'
And I'd relive all the years
And be thankful for the tears

I've cried with every stumbled step
That led to you and got me here, right hereAnd I'd relive all the years
And be thankful for all the tears
I've cried with every stumbled step
That led to you and got me here, right here
Oh, baby ohh
Oh, got me here
