Hundred Mile High City

Ocean Colour Scene

So I said Im on the road so I need a car
And I know that Im getting alive
And I say I got faith and a season
And I say thats where Im going toI get a need and Im wanting to please it
I got a face and Im wanting to feel it
The more I feel is the more that I need it
The more I need is the less I believe itWell I want a good love by my side
Keep on getting out of love and my pride
And I know I keep hurting my love yeah
But I know it aint killingI get a need and Im wanting to please it
I got a face and Im wanting to feel it
The more I feel is the more that I need it
The more I need is the less I believe itSo I said Im on the road so I need a car
And I know that Im stayin' alive
And I say I got faith and a season
And I say thats where Im livingI get a need and Im wanting to please it
I got a face and Im wanting to feel it
The more I feel is the more that I need it
The more I need is the less I believe itI get a need and Im wanting to please it
I got a face and Im wanting to feel it
The more I feel is the more that I need it
The more I need is the less I believe it
