

Ocean Deep

Building 429

Oh would you look at me
Here in my frailty
Yeah, I've been living a lie
Believing that I could earn this
Oh would you look at us
We say we know Your love
And still we think if we fail
Somehow You won't be enough
But your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
Your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
It's more than I deserve
Before I said a word
You know all of my fears
Every tear I will ever cry
And you keep reaching out
Far beyond my doubt
When I see all that you've done and overcome
I'm swept away
'Cuz Your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
Your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
It's all, it's all that I can do
I surrender all I am to You
It's all, it's all that I can do
Yeah
It's all, it's all that I can do
I surrender all I am to You
It's all, it's all that I can do

'Cuz Your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
Your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
Your mercy's an ocean deep
Your grace is washing over me
Your love is like a wildfire
Chasing after me
