Higher Than Hope

Nightwish

Time it took the most of me
And left me with no key
To unlock the chest of remedy
Mother, the pain ain't hurting me
But the love that I feel
When you hold me nearThe hopes were high
The choirs were vast
Now my dreams are left to live through youRed Sun rising
Drown without inhaling
Within, the dark holds hard
Red Sun rising
Curtain falling
Higher than hope my cure liesPassion tide
An angel by my sideBut no Christ to end this war
To deliver my soul from the sword
Hope has show me a scenery
Paradise poetry
With first snow I'll be goneThe hopes were highRed Sun risingYour death saved meRed Sun rising
