Throwdown

Sparky D

Moses came down from the hill
Holding the rules in his hand
Looked all around
Suddenly found
Noone was listening
Now it's time to throw down
So throw down
Throw down
We throw down
Throw down
Jesus turned water to wine
The star in the sky was a sign
They called him a liar
You're not the messiah
Get out of the temple
Now it's time to throw down
So throw down
Yeah throw down
We throw down
Throw down
And then came a man i can't name
Because if i do i'll be maimed
They'll chop off my head

And then i'll be dead
You know who i'm talking about
It's time to throw down
So throw down
Yeah throw down
We throw down aaaah
Throw down
All religions of the world today
We got to leave 'em alone
We got to use our fucking brains today
Before we're gone
Before we're gooooooooone
RIGHT NOW!!!
The three of them fought in the rain
The world was completely insane

Sound the alarms
Nuclear bombs
You crazy motherfucker now
It's time to throw down
So throw down
Yeah throw down
Throw down yeaaaaaaaah
Throw down
