Crave You

Flight Facilities feat. Giselle

Why can't you want me like the other boys do?
They stare at me while I stare at you
Why can't I keep you safe as my own?
One moment I have you the next you're gone
Rehearsed steps on an empty stage
That boy's got my heart in a silver cage
Why can't you want me like the other boys do?
They stare at me while I crave youI walked into the room dripping in gold
Yeah dripping in gold
I walked into the room dripping in gold
Dripping in gold
A wave of heads did turn or so I've been told
Or so I've been told
My heart broke when I saw you kept your gaze controlled
I cannot solveWhy can't you want me like the other boys do?
They stare at me while I stare at you
Why can't I keep you safe as my own?
One moment I have you the next you're gone
Rehearsed steps on an empty stage
That boy's got my heart in a silver cage
Why can't you want me like the other boys do?
They stare at me while I crave youIt's true I crave you
Crave You
It's true I crave youLet's just stop and think, before I lose faith
Surely I can't fall, into a game of chase
Around his little finger, that boy has got me curled
I try to reach out, but he's in his own world
This boy's got my head tied, in knots with all his games
I simply want him more because he looks the other wayWhy can't you want me like the other boys do?
They stare at me while I stare at you
Why can't I keep you safe as my own?
One moment I have you the next you're gone
Rehearsed steps on an empty stage
That boy's got my heart in a silver cage
Why can't you want me like the other boys do?
They stare at me while I crave youI am craving you
