# There Was Another Time In My Life

## Relient K

I know that I've come a long way
My heart's headed in the right place
But sometimes your past's hard to face
But now I know youThere was another time in my life
There was another time in my life
Oh, there was another time in my life
Before I knew youI sailed through the high winds and waves
I wondered if I could be saved
But I have emerged unscathed
Because I know youThere was another time in my life
There was another time in my life
Oh, there was another time in my life
Before I knew you, before I knew youBefore I could see
That you could take all of my troubles from me
Before I knew
I was so incompleteThere was another time in my life
There was another time in my life
Oh, there was another time in my life
Before I knew youThere was another time in my life
There was another time in my life
There was another time in my life
Oh, there was another time in my life
Before I knew you
I was so incomplete
