Like A Star

Jonathan Fritzen

[Chorus]Baby girl, roll down ya window
I love to see your hair float when the wind blow
Even if the money been slow
Aye to you it don't matter cause you still gone ride with me
You're still gone ride with me
I say you're still gone ride with me
I know you're still gone ride with me, hey
[J. Cole - Verse 1]Welcome to the life of a, nice brother
Light skin-ded, black father, white mother
Tried to be a player found out I'm a slight lover
Come from Carolina I'm fly, I'm a Wright brother
Went away to school looking for the right lover
You know someone that couldn't ever worry 'bout a rubber
She had a man, I be damned, think I might love her
Thought about her ass for the whole damn summer
Man I even memorized her whole damn number
This is my semester dog I'm coming to arrest her
Yah, yall you know, handcuff her, her ex man, f-ck him
Oh nah don't be a parr man, that nigga was a dog
So it's me now and she be everywhere I be now
I wonder should I tell her what her fella wanna be now?
The dreams I been dreaming and them things I wanna see now
Do they make you wanna leave or would you still hold me down?
[Chorus]Aye Baby girl, roll down ya window
I love to see your hair float when the wind blow
Even if the money been slow
Aye to you it don't matter cause you still gone ride with me
You're still gone ride with me
I say you're still gone ride with me
I know you're still gone ride with me, hey
(Just like a star)
Cause baby girl you shine (just like a star)
And we gon' do it big (just like a star)
And maybe get a crib (just like a star)
Aye maybe we can live (just like a star)
[J. Cole - Verse 2]Hey, for you I always had an admiration
We lost touch but you never left my imagination
Congratulations on your graduation
Oh now it's time to hit the real world filled with all them r
