Cradle

Rareware

I will rock you like a baby, lover
Cradled in my arms
I will keep you safe from danger
Shelter you from harm
There will never be another lover
Who treats you like I do
We can drift into forever
On a love that?s made for two
Don?t you ever say this love's not special
Don?t you ever think it's not essential, baby
I was only thinking of you
Hoping you were thinking of me
Two hearts beating just like one
Against the world, baby
I am always dreaming of you
Hoping you are dreaming of me
I could never live
One day without your love
I will kiss you like an angel, baby
Cradled in my wings
I will take you up to heaven
Show you precious things
If you promise that you love me
If you promise that you care
I will be here for you always
And forever this I swear
Don?t you ever say this love's not special
Don?t you ever think it's not essential, baby
I was only thinking of you
Hoping you were thinking of me
Two hearts beating just like one
Against the world, baby
I am always dreaming of you
Hoping you are dreaming of me
I could never live one day
Without your love
Though you say you want a love
But you don?t think you believe it
Just open up your heart

And you know, you will receive it
Oh baby, baby
Don?t you ever say this love's not special, no
Don?t you ever think it's not essential, baby
I was only thinking of you
Hoping you were thinking of me
Two hearts beating just like one
Against the world, baby
I am only dreaming of you
Hoping you are dreaming of me
I could never live one day
Without your love
I was only, I was only, I was only thinkin' of you
I was only, I was only, I was only thinkin' of you
I was only, I was only, I was only thinkin' of you
I was only, I was only, I was only thinkin', oh baby
