For the Good

Scott Harris

For The Good"Sittin' alone I was all in shock
Not quite ready for the bomb to drop
The news came quick - I got the script
For the good
What you say ain't always what you mean
Where you go ain't always what you dream
When your plans get changed, flip, rearranged
For the goodFor the good
For the goodSuccess it wants to be defined
Play by the rules and walk the line
I'm rich I'm poor I can't keep score
For the good
A number one song would make me smile
But I don't have one and I still smile
There's a plan journeyman
For the goodFor the good
For the goodI try to hold back the fear
When you get me out of my comfort zone
I look back in the past
And see the plan was making me grow
Hold back the fear
When you get me out of my comfort zone
I look back in the past
And see the plan was making me growFor the good
For the good
For the good
For the good
