On And On And On

Wilco

On and on and on we'll stay together, yeah
On and on and on we'll be together, yeah
You and I will try to stay together, yeah
On and on and on we'll be together, yeah
Please don't cry, we're designed to die
Don't deny what's inside
On and on and on we'll stay together, yeah
On and on and on, on and on and on
One day we'll disappear together in a dream
However short or long our lives are going to be
I will live in you or you will live in me
Until we disappear together in a dream

Please don't cry, we're designed to die
You can't deny even the gentlest tide
On and on and on we'll be together, yeah
On and on and on, on and on and on we're going to try
Please don't cry, this world of words and meanings
Makes you feel outside
Something that you feel already deep inside
You've denied, go ahead and cry
On and on and on we'll stay together, yeah
On and on and on, on and on and on
You and I will stay together, yeah
You and I will try to make it better, yeah
