You'll Always Be Loved (By Me)

Bryan White

Well, this old world can get you down
And leave you spinning 'round and 'round
Not knowing what's for real
On this crazy wheel is part of the dealBaby, there's only one sure thing I know
I never want to let you go
I'll be here by your side on this circus ride
Through every drop and climb 'til the end of timeWhen everything is moving fast
It's hard to stay together
I know that we can make it last
We'll find a way to weatherAny storm heaven sends
We'll see it through to the end
We've got it made if you can just believe
You'd always be loved by meAnd when you go to bed at night
And I'm not there to hold you tight
I'll love you from afar, no matter where you are
I'll count the days 'til when I'm with you againWhen everything is moving fast
It's hard to stay together
I know that we can make it last
We'll find a way to weatherAny storm heaven sends
We'll see it through to the end
We've got it made if you can just believe
You'd always be loved by meAnd when we're growin' old
I'll be the one to hold you closeWhen everything is fading fast
We'll face the end together
We'll find a way to make it past
One final storm to weatherAnd even after the end
I will be with you again
We've got it made if you can just believe
You'd always be loved by meYou'll always be loved
By me
By meWhen everything is moving fast
We'll find a way to make it last
I will be with you again
I will be with you again
I will be with you again
