Triangular Square

In Trance 95

It's following me where I'm going
The same thought of not knowing
It's haunting me every morning
I can't explain where we're goingBetter walk
Very slow
When we go
Always goIt's following me where I'm going
Stalking me as I'm walking
When I go
Where I goI can't explain why they're hiding
The same things we are not knowing
From all the times we were glowing
Long agoI can't explain where we're going
All of my friends they don't know me
But I try to be lovedIt's following me where I'm going
The same thought of not knowing
When I go
Where I'll goTriangular square like this drawing
I don't know
