Champs Elysees

NOFX

I was walking on the avenue
(Strolling)
The heart opened to the unknown
I wanted to say hello to anyone
Anyone and that was you, I told you anything
Just hadda talk to you, to tame you
(Win over)On the Champs Elysees, on the Champs Elysees
Under the sun, under the rain, at midday or midnight
There's whatever you want on the Champs ElyseesYou said I have rendezvous in a basement
(Underground)
With mad guys who live with guitar in the hand
(Crazy)
From evening til' morningSo, I've accompanied you
(Came with you)
We sang, we danced
And we even not thought about kissin'
(Embracin')
