Don't Wreck Your Car

Ashley Stove

Morningshine
I don't see your kind much but I like it like this
If you wreck your car
I won't get to see you in the morningIf I was a fly on the wall
I'd watch over you like a fly would do
I'd show you how
To make the air a force field around youYour car is a comet
I put a spell on it
A force field around you
Paint glass metal
Kiss kiss a pedal
Magic car haiku
But I like it like this
